We found the cabin at Timberline to be clean, very well furnished and centrally located. Very nice accommodations and as described on line. But certainly the biggest takeaways was the customer service by the rental management. Absolutely superior customer service!! Whenever back in this area we will without pause choose Timberline.

We love getting away to Methow Valley and wanted to try a vacation rental. It was even better than we had hoped. We used the kitchen to make our breakfast and pack our lunches for hiking. Everything about the Horseman's Hideaway was wonderful. I would love to come back and stay again!

We very much enjoyed our stay at the Horsemans Hideaway- beautiful location and the house is very comfortable, well appointed and close to Mazama area trails and amenities. There was quite a bit of snowfall during our visit (yay!) and the road was regularly plowed and the house warmed up quickly.

A perfect holiday retreat for the 4 of us. Spacious yet cozy, and well appointed. We were there for the winter weather and XC skiing and weren't disappointed. Close enough to ski to the Mazama store and connect with the many trails in that area, or an easy drive into the Winthrop area for meals or community trail skiing. The windows and subsequent view across one entire side of the home were fantastic. We had thought cell service would not be available, but our Verizon signal was strong (we tried to ignore it!). We would happily return to this property.

The Horseman's Hideaway has all of the conveniences right at hand and it sits at the foot of a hill to hike. Nice decor with the Cowboy theme. Kitchen had a nice view out and granite counter tops with appliances. The front deck was a perfect place to sit with coffee in the morning; taking in the sunrise and the change in color of the distant mountains. Also great for wine in the evening to watch the sunset. Timberline Meadows is only 2 miles from the Mazama general store with Gourmet sandwiches and some of the best fresh baked goods you will ever find. The cracked salt baguette is to die for. We were close to hiking trails and a short drive to Winthrop for evenings out. We had no issues with the facilities nor the manager. A very rejuvenating stay. We will come back again.

Our vacation in the Cascades was picture perfect, thanks to this wonderful house in Mazama. It's beautifully set up, thoughtful, and well equipped. We had absolutely no issues from beginning to end. Our grandchildren, ages 3 & 6 thought they had died and gone to heaven! The last evening they dressed up as trees, with branches, leaves, and flowers from the back yard just so they could remember what a glorious vacation it was. Many thanks to Vicki, who made our booking so easy. My husband and I (in our 70's) came from Florida to marvel at the mountains and scenery of the Cascades. Our son and his two children, with their grandma took long hikes high into the mountains. But we were always thrilled to get back "home". Many thanks, Paquita & Joe Holland Venice, FL

I have always enjoyed coming up to Winthrop/Mazama, Washington to visit the beautiful scenery and the amazing people here. This property sits in the center of a beautiful valley. It is very secluded and has many activities for the outdoorsy type. Such a great hospitality and genuine people. This was my third stay here and I will continue to come back. My fiance's first time, and he wanted to stay longer. If we lived closer we would come more often as there are many of our favorite things to do here, some of these include, fishing, hiking, skiing, swimming, jet skiing, hunting, and many more. You bet we will be back, hopefully sooner than later. The actual house itself was very clean and I felt as if I were at my own home, in my own germs, and no one Else's. The beds were nice and neat, towels were clean, and there was no sign of someone there before us. It's really nice that there is a washer and drier, as sometimes those are needed. Thanks for having us! We appreciated the warmth and hospitality of your hideaway!

Our family of 4 rented the Grey Moose cabin at Timberline to meet up with visiting family of 4 from

Michigan. The main floor living space was great for the 8 of us, great amenities like the fireplace, big table in the eating area, and the 3 bedrooms. We managed to figure out an acceptable sleeping arrangement for all of us given a range of ages (8 yr old to 58) and couples etc., but that was our only struggle - consider another cot or hide-a-bed situation for larger groups. Close access to cross country trails and Mazama, and a beautiful setting. Will definitely consider returning and staying longer next time.

The most important thing to understand about this listing is that it is used as a clearinghouse listing for 8 or so different cabins/houses in the same development. There are a few that seem to be identical to the listed property, and others that are different configurations. We reserved the one in the listing and ended up getting another one. This worked fine for us, but it was a different price and a different configuration than the one listed. It is important to go directly to the Timberline Meadows website and contact them directly to make sure you know what you are getting and what you are paying. The cabin we got was great - 3 BR/2 BA, on the trail system, convenient to Mazama and Winthrop, all worked out fine.

We rented this duplex (one bedroom) for the Thanksgiving weekend. We like to come for the western town of Winthrop holiday lighting celebration. We did get some snow on the Sunday after Thanksgiving which was a nice surprise. The townhouse was very spacious for 2 people with nice linens on the bed. There is a 2nd Queen bed in the living room that comes down from the wall and a 2nd full bath as well making this a good fit for 2 couples or if we had our daughter with us. The kitchen is not large but has everything you need to fix a meal including a dishwasher and gas stove (a plus for any cook). Fireplace was cozy as the temps were unseasonably cold. We were even given an off season rate for the holiday weekend, i think because we stayed 4 nights.

Nice location for a summer vacation with a view due north of Goat Peak and surrounding hills. Well shaded in the edge of the trees and cooling breeze down the mountains at night. The cabin worked well for both of us and our 2 adult kids. The cabin was minimally equipped for cooking, but worked. Was

missing a few items you normally find in any hotel room, such as Kleenex type tissue. The main floor bathroom shower head needs replacement (no spray, more like an open pipe), but worked to wash off a days worth of trail dust. Main problem for us was the main floor queen bed sagged in the middle. All night I kept sliding down to the middle, waking, and pulling myself back to the edge for some space. Bottomline: even after a long day of hiking, we didn't have a good nights sleep. Our kids slept fine each night in the upper bedroom and loft bed/s. As for a possible winter rental: Not sure we would like the lack of sunshine since it is up against the north slope of the valley. We wax our skate skis every evening and would not walk halfway to hwy (down to the pump house) to do so. Waxing requires a heated room to wax skis & let them absorb the wax overnight. No room for this and the mess in the cabins. 4 Stars for the location, view, quiet, and good looking cabin/home. 0 Stars for the queen bed on the main floor.

Had a family reunion at the Alpine Lodge and Valley View. The cabins are well furnished and very comfortable. Enjoyed watching the deer grazing in the meadow each evening. I would come back again, perfect spot for a base in the valley during ski season. I would ask that the owners not remove the grills as planned. The community grill is too far to transport food from these cabins and I would not want to eat in the community area instead of eating at a table. If they are moved, this would be a reason to look elsewhere.

Pleasant respite...

This is one of several cabins arrayed along, yes, a timberline bordering the edge of the North Cascades and Methow Valley pasture land. It's on a main road and just 5 minutes tops to Mazama which has a cute little store with groceries, coffee, alcohol and souvenirs-- it's spendy and they only take cash, so be prepared. We were there for climbing and just enjoying the area and really liked Mazama overall, great vibe. The cabins are all quite close to each other so noise through open windows is a reality. We didn't mind so much, but that might not have been the case if there'd been any kind of night partying. The cabin itself is very clean and in good working order, and the decor is simple and just right without being too kitsch-rustic. We were 2 couples with a total of three kids under 5, and we fit just fine using the upstairs and the downstairs together and this even offered us a bit of family privacy. My only complaint was not a single decent large cutting knife which created several potentially hazardous chopping situation with the small dull ones available. The downstairs layout with the open kitchen is great and the best part was enjoying the wind through the trees and the sundown from the back porch. The kids loved the creek and the cabin we were in (Crazy Squirrels) was right in front of a little bridge and we spent a happy hour floating leaf boats under it and down the creek. We even waded in with our little ones! The Early Winters Outfitting at the end of the road also was a great pit stop for counting horses for the kids - and then on the last day we stopped and paid about \$30 for a 20 minute ride for our 4 year old daughter. She's allergic to most animals but not horses, so it was a huge treat for her and they were

super nice. All in all, I'd definitely recommend the cabin we were in and Timberline Meadows overall and I'd for sure stay there again.

Wonderful Fall Getaway!

Methow Valley was a recommended fall leaf-peeping trip by Sunset magazine some years ago. Mid October I embarked on this journey with my extended family. I had checked tripadvisor reviews, and Timberline Meadows fit the bill.

The trip up from Everett was short of magical. Tree lined HWY 20 showed bright fall colors, and Washinton Pass had donned a winter dress. The trees were loaded with snow and it appeared we stared straight into a Christmas card. A few miles later we reached Timberline Meadows and it was fall again.

Timberline Meadows is a collection of multiple cabin rental properties closer to Mazama than Winthrob. (Cabins are named individually, as listed on their website). Each property is described in detail, so I'll just mention a few things. We were staying in the Elk Lodge with 3 adults and 4 children.

The cabin was tastefully furnished. It heated up quickly, which was nice, as it was cold outside. The view out the kitchen window was simply divine. Mountains in the background with low hanging clouds, tall pines in the foreground, and a meadow in between.

You will find a lot more than the basics in this cabin. It's really more like a thoughtfully put together living space. It truly is a home away from home. We took walks with the children close to the cabin. We explored Winthrob, a quaint little Western themed town. Personally, as a Californian reeling from a long summer that lasted well into fall I found the weather most fascinating. The low hanging clouds and snow on the mountains in the morning gave the area a mysterious aura. The fall leaves may not have been at their peak, but they were fabulous... even without sun

This was a great weekend that I will remember for a long time to come, and so will the kids and grandkids. By Cali4niahiker from Merced, California on 10/30/2012 for a stay in 10/1/2012

Alpine Loft

My wife and I stayed in the alpine Loft for 6 days in September and it was very comfortable. Wonderful bed and a full kitchen. The shower was a bit small, but the shower head made up for it. It was easy to keep warm and there was a full kitchen. Mr. Fasse lived in the attached house and was very nice. It was very quiet and the only negative I could find was the lack of curtains could make some feel exposed. The location is just outside the park, and a shopping market (expensive) is 10 minutes away in Winthrop. I wouldn't hesitate to recommend this to all. "Had a great time in a great setting"

We had a wonderful weekend in this beautiful area. The house was comfortable and accommodating for

an extended family. We enjoyed the games and the ability to play music. Mazama store was an added bonus as were the scenic trails. A short drive to Winthrop for lunch was a treat. The negatives I have is that the propane grill was so dirty we didn't feel we could use it. The weather was dramatic and changeable, which we enjoyed very much, but it would have been so much nicer if we could have used the fireplace when the rain and colder winds came in. Also, was dissapointed to find out the hot tub is no longer. All in all we had a wonderful time.

Thank you, Heidi S Hudlet

Peaceful, beautiful vistas of the surrounding Mountains

The check in was easy and quick. the woodsy cabins and fire places found us eating and reading much of the time. We did not use the hot tub but will next time. The drive over North Cascade was beautiful. You should check to make sure North Cascade highway is open, (it closes in winter for snow. The kitchen was well equipped for vacations. It is a drive into town but worth the trip to see the western town.
